PROFILE

As a senior front-end developer with over 4 years of experience, I have a deep understanding of modern front-end technologies and frameworks, including HTML, CSS, JavaScript, React, and Vue. I possess a proven track record of delivering high-quality, responsive, and accessible user interfaces that meet business requirements and exceed user expectations.

I am well-versed in agile development methodologies and have experience working collaboratively with cross-functional teams, including designers, back-end developers, and project managers. I have also mentored and trained junior developers, demonstrating a passion for sharing knowledge and driving innovation.

My problem-solving skills and attention to detail enable me to design and implement complex user interfaces and intuitive user experiences. I am adept at working with APIs and integrating with back-end systems, and I am familiar with version control systems such as Git.

EMPLOYMENT HISTORY

Oct 2022 — Present

Seiner Front end developer, Madar.io — Remote

1. Converting Xd template to live site and integrating it with Back-end API
2. Worked as a productive and positive team member to design, code, test, report, and debug operations.
